Brenda:

Your submittal as drafted looks fine, and will suffice for the requirement via the CAFO. Please finalize and send it to EPA, c/o me. Once we get further into the permit mod we'll adjust/tailor some of the sampling/monitoring requirements to better reflect conditions at the site. Any Qs let me know. Aaron

Subject: Draft letter re: PTP

Aaron,

I worked on this tonight and now I have to go. I am almost done. It is most definitely a draft. I have not even proofed it. I just wanted to send it to you to get your input. I will be in the office until 1 pm tomorrow. Jim Robinson will be here at 3 pm to meet with the drafter and go over the changes to the system in CAD. I hope to be back in time to go over a few of these issues with him. So, I will not be getting you what I hope to be the final before I have a chance to go over it with him.

I think this may be a little overkill from what we talked about, but I like having the detail in there for my future use. I hope you like it; remember it is a draft.

I hope to talk with you tomorrow. I hope I did not get PTP in trouble with January 7 deadline.

I hope to talk with you soon about the sampling limits. I have a few questions on those.

Thank you,

Brenda
